SUMMARY

Data Analyst skilled in SQL, Power BI, Python, and Excel with experience in data collection, cleaning, ETL automation, dashboard development, and business reporting. Passionate about identifying trends, optimizing business processes, and transforming data into actionable insights that support strategic decision-making.

SKILLS

Technical Skills SQL (MySQL)
Power BI (Dashboards, DAX)
Microsoft Excel (Pivot Tables, VLOOKUP, Data Cleaning)
Python (Pandas, NumPy, Matplotlib)
ETL
Data Visualization
KPI Reporting

WORK EXPERIENCE

Renu Sharma Foundation, Data Analytics Internship January 2025 - April 2025

- Extracted, cleaned, and transformed data using SQL and Excel while automating ETL processes to maintain data integrity and support KPI reporting and business analytics.
- Led a team of 10–15 interns, coordinating tasks, providing guidance, and ensuring project deadlines were met.
- Promoted from Data Analytics Intern to Sr. HOD Intern based on outstanding performance, leadership, and contributions to team coordination and operational efficiency.
- Collaborated with cross-functional teams to collect, validate, and analyze data, delivering reports and actionable insights that supported business decision-making.

Certificate

Winter School Training Program, IITM	<i>January 2026</i>
Trainee, DUCAT	March 2025
Group Discussion, CPJ	January 2025
SQL Essentials Bootcamp(5 Days), Lets Upgrade	April 2023
Python Programming Essentials Bootcamp(5 Days), Lets Upgrade	April 2023

PROJECTS

Project: Online Retailer Excel Project [Link to Demo](#)

Analyzed retail sales data to track monthly revenue, inventory turnover, and product category trends. Created automated Excel dashboards using Pivot Tables and dynamic formulas to streamline weekly management reporting.

Project: Project: Movie Industry SQL Project[Link to Demo](#)

Designed and executed structured SQL queries with **multi-table JOINS and subqueries** to extract key business insights from the movie database.

Structured data retrieval queries to track box office trends, average ratings, and genre profitability across multi-year datasets.

Analyzed box office performance and genre profitability using SQL to identify trends and support business insights.
